Lori,

The following statement on EJ engagement has been incorporated into this version of the document.

EPA remains committed to working with EJ communities. We continue to provide updates on site progress and respond to questions during regularly scheduled community meetings and during the Oregon EJ Task Force meetings. We are engaging with EJ communities by providing training and multilingual outreach materials on the cleanup process.

Hi folks,

The RA's office has requested an updated briefing paper for the PH site. Dennis will be meeting with Sen Merkly next week, and other congressional representatives but I don't think any others from Oregon.

I took some of the existing papers and put this together - any comments? COB Monday so I can get it to Kendra.

Thank you.

Lori
